MEMORANDUM FOR: Inspector General

SUBJECT : Lack of Field Information on Pay Raise

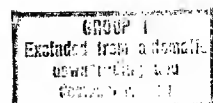

REFERENCE : IG Memo to DD/S, dtd 7 November 1962,  
Same Subject

The point you make in the referenced memorandum is a good one and I hope that we will be able to move a little faster on such matters in the future. The State Department was able to scoop us in this instance because they took a chance which came off successfully. They prepared their Notice on the basis of the draft bill before it was approved, whereas we waited until the President signed the bill before getting out our instructions.
